

Petition to Federal Legislators: Protect our Health and Give the Cosmetics Industry a Safety Makeover!

Please join the Campaign for Safe Cosmetics by signing this petition. We'll use it to tell our representatives in Congress that we need safer products and smarter laws to protect us from toxic chemicals in personal care products!

Chemicals linked to cancer, birth defects and other adverse health effects do not belong in products we use on our bodies. Major loopholes in federal law allow the \$50 billion cosmetics industry to put unlimited amounts of virtually any chemical into personal care products with no required safety assessment, no required monitoring of health effects, and inadequate labeling requirements. Thankfully, legislation has been introduced in Congress that would address these failures.

We, the undersigned, call on our representatives in Congress to protect our health by co-sponsoring the Safe Cosmetics Act of 2010 to ensure the safety of cosmetics and personal care products.

NAME (Please print)	STREET ADDRESS (For petition to Congress only; we will not send mail to you, or trade or sell your address)	CITY	STATE & ZIP CODE	PHONE	E-MAIL Join our Action Network! We'll e-mail you occasional Campaign action alerts and updates, and we won't trade or sell your address.

PLEASE SEND COMPLETED PETITIONS TO:

Campaign for Safe Cosmetics, c/o Breast Cancer Fund, 1388 Sutter St., Ste. 400, San Francisco, CA 94109; FAX: 415-346-2975
